

**LNG 102 FUNDAMENTAL ENGLISH II****Credits:** 3 (2-2-6)**Prerequisites:** Pass at LNG 101 Fundamental English I **or** Pass from Placement Procedure**Course Description:**

This course builds on LNG 101 by providing further strategy training and places a strong emphasis on the cognitive skills of the students. A wide range of cognitive skills is covered including logical, creative and critical thinking. These cognitive skills are dealt with through a series of English medium tasks, which include problem solving, library tasks and Internet projects. Students' language difficulties are dealt with as they arise thus addressing students' real needs. Covering all four skills, the content of the course includes occupational as well as academic English. To enhance autonomous learning skills, students are encouraged to learn independently using the Self-Access Learning Centre as well as Internet and library resources.

**Course Concept:**

1. Strategy training is very important for students to overcome difficulties in English language learning.
2. Cognitive skills including logical, creative and critical thinking can help students improve their skill of systematic thinking together with reasoning.
3. Occupational and academic English can enhance the ability of students to learn and work in the future.
4. Autonomous learning or independent learning is one of the most important skills to be used to train students towards life-long learning.
